PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence & Data Science undergraduate (Class of 2029) at Rathinam Technical Campus, Coimbatore. Founder of HearWise Technologies and Logic Intelligence Technologies. Meta PyTorch OpenEnv Hackathon finalist, placing 3rd overall (score 9.3/10), with hands-on experience across the full product lifecycle — UI/UX, frontend, backend integration, and deployment — using React.js, TypeScript, REST APIs, and Supabase.

TECHNICAL SKILLS

- Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite
- Backend & Database: Node.js, Supabase (PostgreSQL, Auth), REST APIs, SQL, MongoDB
- Languages: JavaScript, TypeScript, Python, SQL
- Tools & DevOps: Git, GitHub, GitHub Actions (CI/CD), Vercel, Netlify
- AI & APIs: Anthropic Claude API, Gemini API, Prompt Engineering, n8n Workflow Automation

PROJECTS

HearWise Child Health Platform

React 18, TypeScript, Vite, Supabase, Anthropic API

- Built a pre-launch, mobile-based school hearing screening platform — a React 18 app across 20+ screens, with bilingual English/Tamil support and Web Audio API-based audiometry.
- Developed an admin dashboard with Recharts analytics, Supabase realtime subscriptions, Google OAuth/OTP auth, and an AI chatbot powered by the Anthropic Claude API; deployed via GitHub Actions CI/CD.

Support Ticket Triage Simulation | Meta PyTorch OpenEnv Hackathon

Python, FastAPI, Docker, Pydantic

- Placed 3rd overall (score 9.3/10) as a hackathon finalist (Team Fresh Tensors, partnered with Scaler School of Technology) — built a production-ready RL simulation environment for training AI agents on customer support ticketing workflows.
- Engineered a stateful REST API (/reset, /step, /state) with FastAPI, containerized with Docker, and implemented a multi-tiered algorithmic grader for agent performance evaluation.

Logic Intelligence Technologies — Company Website

Next.js 15, Tailwind CSS, TypeScript

- Designed and built a custom, responsive company website end-to-end — UI/UX, frontend, and hosting — engineered for speed, security, and user experience.

EXPERIENCE

Founder & CEO | Logic Intelligence Technologies

May 2025 – Present | Coimbatore, India

- Deliver custom web design and end-to-end development for clients, building responsive, modern websites focused on speed, security, and user experience.
- Onboarded the company's first paying client and delivered the signed engagement in one week, from intake call to production handoff, using a 31-question client intake framework and INR-priced service packages.
- Provide reliable, hassle-free hosting deployments to keep client sites fast and accessible 24/7.

EDUCATION

B.Tech - Artificial Intelligence & Data Science

2025 – 2029 (Expected)

Rathinam Technical Campus, Coimbatore, Tamil Nadu — Core subjects: Python for Data Science, Machine Learning Fundamentals, Algorithm Design, Statistical Modeling, SQL. AI Skills Hub – Centre of Excellence commitment secured.

CERTIFICATIONS

- Full-Stack Development Workshop — Rathinam Technical Campus | Relational Databases — freeCodeCamp | Coding Essentials — Scaler
- Generative AI vs. Traditional AI; Working with LLMs & Prompt Engineering Essentials — LinkedIn Learning | Design Thinking — IIT Bombay

ACHIEVEMENTS & HIGHLIGHTS

- 3rd place, Meta PyTorch OpenEnv Hackathon (score 9.3/10) — Team Fresh Tensors, partnered with Scaler School of Technology.
- Founded 2 companies before age 17: HearWise Technologies Pvt. Ltd. (registered) and Logic Intelligence Technologies.
- Onboarded Logic Intelligence Technologies' first paying client and delivered the engagement in one week; 5+ live personal and client projects deployed on GitHub Pages, Vercel, and Google Cloud Run.
